DAILY TRIBUNE.

Saturday Morning........May 9, 1857.

Church's Niagara.

Church's "Niagara" is now on exhibition here. It is a splendid picture; all in motion, except the distant shores of Goat and the other Islands, the rocks beneath the rushing tumbling "hill of waters," and the reflection of some white and purple colored scirrus clouds on the surface of the rapids where the waters are not broken into foam—all the rest, from ground, middle and distance, right and left, above and below, is full of the life and grandeur of the scene.

The concentrated deep flood of water at the foot of Horse Shoe fall with its bright emerald color, unbroken into snowy foam like that on either side, as it plunges down into the abyss, where the writhing, tortured waters hasten away to make room for more, their fleecy surface visible through the rising mist, on which the transparent, unsubstantial rainbow is sun-painted, and almost comes and goes before your eyes, its broken arch now distinct, now scarcely tinging the varnished spray through which is seen the distant sombre forrest; the smaller jets of spray that leaps from the crests of the coming waves just before they take the plunge, and the transparent green of others, as they rise sharp and unbroken between they eye and the abyss on the verge of the descent, and many other features that I cannot now describe, are all truthfully rendered, and with a vividness that brings Niagara itself before you; while just rising above the horizon of coming waters and falls and foam, one of those snowy cumuli is seen in the far distant sky, a hint of the wide spread surface of river and lake, the fountains from which Niagara draws its never failing chrystal flood.

The picture is going to Europe for exhibition soon, and is to be engraved and printed in colors in the best style of that new art. Messrs. Stevens & Williams paid $4,500 for the painting and copyright.

It is a work which every American may be proud to have go abroad as a representation of our great cataract, and an evidence of the power of an American pencil.

CITY ITEMS.

TURTLE SOUP.—A fine turtle is to be served up at the Delmonico Dining Saloon, on Sunday. The luxury weighs two hundred and eighty pounds.

NEW DRESS.—The *Democratic Press* appeared yesterday in a new dress, looking as bright as a new dollar. We congratulate our neighbors on the improved appearance of their paper.

LECTURE.—Rev. E. H. Chapin, will deliver his lecture on "Columbus" or the Discoverer, in Metropolitan Hall, this evening. Lecture to commence at one-fourth before 8 o'clock. Tickets for sale at E. S. Wells' shoe store or at the door.

THE WEATHER.—Yesterday was quite warm, but the dust was truly awful. A strong wind swept it about the streets in blinding, stifling clouds. The ladies were out of humor all day. Between the wind and dust their silks and hoops experienced rough handling.

CHICAGO CATHOLIC INSTITUTE.—The annual festival of this Institute, will be held on Wednesday evening, the 13th inst., in the Light Guard Hall. The Institute is composed of young men of the Catholic faith. The proceeds of their festival go towards replenishing the Library.

CANAL SALES.—All of course will be glad to know that the annual sales of canal lots and lands, take place on Monday next, at the office of N. J. Iglehart, No. 56 La Salle street. We learn there is still considerable prime property in and about Chicago to be offered, including a seven acre block near Bulls Head.

NEEDS ATTENTION.—In Wolcott street, near the Chicago Avenue Public School Building, is a large and deep hole filled with water. Yesterday, one of the school children accidentally tumbled into this hole, and came near drowning. A few days since, another child fell into the same hole and was rescued with difficulty. The hole is some six feet deep.

SAD BEREAVEMENT.—On Thursday evening, the family of a Mr. Throop, living in the West Division, attended the dedication of St. Paul's Church, leaving four young children in the care of a servant. On their return home, they found one of the children dead in its bed, it having evidently died in a fit.

VALUABLE CRITICISM.—The *Democrat* of yesterday morning, in its criticism of Mr. Ahner's concert of Thursday evening, says that "Mrs. Matteson, also, of Grace Church Choir, sung the alto most admirably, as she always does." The value of this criticism may be estimated when it is remembered that Mrs. Matteson was not present at all during the concert.

SUMMARY ABATEMENT OF A NUISANCE.—A day or two ago a disreputable house was moved upon a lot owned by Col. Ewing, on Sangamon street and adjoining the Dutch Reformed Church. At Col. Ewing's request the Mayor directed the Police to abate the nuisance complained of by tearing down the building, which was done. This summary process will probably serve to make the keepers of these vile dens more circumspect in their conduct.

A MODEL LETTER.—Some amanuensis for an indignant subscriber, sends us the following letter. We give it verbatim, as near as the compositor can decypher it:

MR. VA MEDIL & CO.—cur—I wisht youd cend ——'s pepper bi male the dam ting doant kam haf the tim we suppose sum body steels it at the depou h for the tixet agent sas how that nobodey on the kears ant respsible for em I rite for the requist of wife he being gon ab scent who tinks a grate eel of the peper. Yours & Co

THE ARSON CASE.—The examination of Frederick Otten, the fireman charged with setting the fire on W. Randolph st. which destroyed the National Hotel stables and other buildings, was concluded yesterday and Otten was committed for trial in default of $1500 bail. The testimony against Otten is very positive. There is but little doubt that the fire was set for the sole purpose of calling out the Department and having a run with the machines.

FOBES HELD TO BAIL.—The young man, George C. Fobes, charged with forgery, came forward yesterday and waived an examination. He was committed for trial in default of $5,000 bail. Fobes is accused of forging the name of E. B. Ward, of Detroit, as endorser upon a note for $300 and one for $500. Fobes is, we learn, engaged to be married to a young lady of this city, and the wedding was to have taken place in a few days.

FATAL ACCIDENT.—An unknown woman was run over and instantly killed by an Express train near Cottage Hill, on the Galena road, on Wednesday. It appears that she was walking on the track, and seeing a train approaching her from the west, stepped out of the way till it had passed, and then stepped on again, when the Express train came from behind her, and before she discovered it or the engineer perceived that she was on the track, the engine struck her, and the whole train passed over her.

MAMMOTH OVEN FOR CHICAGO.—The people of Chicago who use "baker's bread" will be glad to learn that we are to have a mammoth oven erected in Chicago similar to those now in operation in Brooklyn, New York and other eastern cities.

A new building is about to be erected for the oven near the corner of Lake and Clinton streets and the whole cost of the affair will be some $50,000. This oven will bake some five hundred barrels of flour per day and the result will be a great reduction in the price of bread.

THE BLONDE MANIA.—The light-haired Empress of France, has made blonde women as fashionable as hoop petticoats. While the latter "freak of fashion" is decidedly repulsive, the rage for blondes is in harmony with our higher instincts. The fairer a woman is, the nearer is her proximity to the angels. Who ever saw a brunette St. Cecilia? In Paris, we are told, they have formed a society for the worship and cultivation of blondes; and light-haired Saxons are at a premium. Since the famous "tulip mania," there has been nothing like this rage for "white skins."

TAPPAN HAS MOVED!—Aye, this is true. Tappan has moved from his old quarters on Clark street, to the splendid new store, No. 108 Lake street, where he has ample room to display the mammoth new stock of spring goods just opened by him. The new store is twenty by one hundred and sixty feet, is admirably lighted, and the display of clothing is a very fine one. Tappan is determined to have the largest and best clothing store in the city, and he is certainly in a fair way to succeed. His goods are remarkably cheap as well as of the very best quality, and all who want anything in his line, should visit the new store.

RAILROAD STOCKS.—On the 6th inst., in New York, Chicago and Galena sold at 95 per cent; Michigan Southern at 65½; N. Y. and Erie at 43; New York Central at 86½; Cleveland and Toledo at 67½; Michigan Central at 94½; Chicago and Milwaukee Lake Shore at 57.

The tendency of all the Railroad stocks, appears to be downwards. Why is it? The N. Y. Herald, which is a notorious "bear," says that it is because the control and debt of the roads are up faster than the gross business; that each road keeps issuing more stock and bonds, watering the former and piling up the latter so fast that it is impossible for the net earnings to keep up the price of stocks.

ONLY A PART.—The item in yesterday's paper, saying that "the *Tribune* paid out weekly, for all its departments, about $1,000," might convey the impression that that was the whole disbursement of the establishment, which is not the case by considerable, as it does not embrace either the monthly or quarterly payments for white paper, fuel, rent, taxes, gas light or editorial salaries, which amount to considerable more than $30,000 per annum. The whole outlay of the *Tribune* is between eighty and ninety thousand dollars per year. Two years ago, when the present firm took possession of it, its business only required an expenditure of $35,000 per year.

THE CONCERT THIS AFTERNOON.—Mr. Ahner announces the last concert of the fourth series to take place in Metropolitan Hall this afternoon. The following is the programme:

1 March—Bianca........Meyerbeer.
2 Allegretto—from Symphony Cantata, Song of Praise........Mendelssohn.
3 Variations—for Violin........Beriot.
Performed by Mr. [illegible]
4 Waltz—Homage to the British Nation........Lanner.
5 Grand Solo—for the Harp.
Performed by Miss DEAN, (a young Lady of this city.)
6 Overture—Oberon........Weber.
7 Piano Solo.
Performed by Mr. L. HAHN.
8 The Anvil Chorus—from Il Trovatore, arranged by C. Bergmann.
By Request of many Ladies.

We trust that the public will not let these really excellent and instructive concerts be discontinued for the want of support. Mr. Ahner has already made many sacrifices in aid of creating a taste in Chicago for the best compositions of the great masters, and his efforts in this behalf should be liberally seconded by our citizens.

THE WOMAN'S ADVOCATE.—This is the title of a neat and readable weekly newspaper published in Philadelphia. The paper is owned, edited published and printed by women, and its object is to extend the field of industrial pursuits of women in this country, and to aid them in obtaining a greater variety of employment, at more remunerative prices. It is not what is popularly termed a "woman's rights" organ, but aims to elevate and improve the condition of the toiling females of the country, and procure for them a recognition of their rights every where.

Miss Sarah Brown, an agent of the paper, is now in this city, for the purpose of obtaining subscribers, and we hope the women, at least, of Chicago, may respond cheerfully to her calls for subscriptions.—Miss Brown will canvass the city, visiting the dwellings as well as the places of business of our citizens.

WATERED MILK.—The milk peddlers buy their milk from dairymen out in the country, and bring into the city on the railroads. It is then carried around from house to house and sold by the quart. Between the time it leaves the cow and reaches the consumer in Chicago, the cream is taken off it and the skim milk undergoes the further process of watering. Whether or not the practice of "doping" is continued, we can't say; but we do know that it is most outrageously diluted. We are told that dairymen, nearly all, skim the cream off the night milking, next morning, and then ship it to their agent or purchasers here, by car. The writer of this buys milk every day from Floyd Higgins. It is sold for pure undiluted fresh milk; but it is no such thing. The cream has been taken from it before it reaches his family. He has tried the milk of other peddlers, but finds theirs no better. He believes that it is the man who furnishes Higgins that takes off the cream, and waters it. His neighbors complain of the diluted skim milk sold to them by the peddlers. Is there no remedy against this fraud? Thousands of families are imposed upon in this way every day. Can not an inspector be appointed, who will examine and test the quality of the milk sold to people, and protect them against the miserable swindle played upon them every day?

EDWARD EVERETT—NEEDLESS ALARM.—We hear it said that while in Chicago, Mr. EVERETT received an anonymous letter, saying that, during his Oration on WASHINGTON, he would be interrupted by some meddlesome "Abolitionist," who would rise in his place and ask why the orator neglected to speak of WASHINGTON'S well known Anti-Slavery opinions, and equally well known emancipation of his human chattles by solemn provisions in his will? The venerable, learned and classic dough-face was in great trepidation, and applied, so the story runs, for a police force that would insure the instant ejection from the hall of any impertinent and troublesome fellow who could so far forget what was due to an "invited guest," as to fling such objectional enquiries at his head before a crowded assembly, three-fourths of whom would sympathize with the objects of the interruption. Fortunately for the reputation of our city, and the peace and quiet of two hundred or more Bostonians who do not always sneeze when Mr. EVERETT takes snuff, the rascally fellow's heart failed him, and he suffered the opportunity to go by without his promised demand for an explanation. Nevertheless we do not wonder that Mr. EVERETT should have been nervously anxious about a threatened question, which would, to say the least, have driven him into a closer corner than he has ever yet wriggled out of—and that would be close indeed.

POLICE INTELLIGENCE.—The following cases were disposed of yesterday:

Nicholas Heron was fined $5 for taking sand from a public street.

Christopher Cummings and Mathias Snyder were fined $5 each for violating the bridge ordinance.

Wm. Rice, the driver of hack No. 10, was fined $5 for overcharging a passenger.

Charles L. Mesley, a pimp in a disreputable house on Clark street, was fined $10 and sent ten days to the Bridewell, for beating an inmate of the house.

Wm. Comra, a lad, was sent to the Reform School, for stealing poultry.

Mene Krager was arrested for stealing two crocks, valued at 33 cents, from the sidewalk in front of a store on Chicago Avenue. She was discharged from custody with a reprimand.

Martin Clancey got drunk, and his wife punished him by striking him with over the head with a stick of stove wood, and scratching his face. When Martin got sober enough to stand, he revenged himself by beating his wife, for which he was fined $5.

Elizabeth Hill was released from the Bridewell, on Thursday evening where she had been working out a fine imposed for being an inmate of a disreputable house. Yesterday she was again arrested for making a disturbance in a saloon near the Rock Island Depot. She was fined $10 and sent to the Bridewell. Her story is a sad one, but not unlike many which might be truthfully told by others in the same degraded condition. Less than one year ago she was one of a happy circle of a farmer's family in Michigan. Young, only sixteen years of age, and prepossessing in appearance, she became the victim of a heartless seducer. Fearing that she might become a mother, her seducer induced her to come to Chicago, and on the day of her arrival he placed her in one of the vilest of the many vile haunts of this great city. She soon became as vicious and degraded as those in whose company she lived, and her short career in crime has ended, for the present, at least, in a felon's cell. One of the officers who learned her story has determined to write to her parents and endeavor to induce them to receive her back to the home from which she has been so heartlessly abducted.

Patrick Dougherty, a "broth of a boy" was fined $5 for knocking down his employer because he discharged him. While in the cell he pitched into a fellow prisoner, for which he was fined $8 and costs.

For being drunk, disorderly and fighting, Michael Sexton and Marks Abram were fined $1 each; W. S. More, Edward O'Neil, Patrick McDonald, James Haines, Thomas McClure, John Brown, Samuel Cox, Elizabeth McDowell, John Brown Jr., Charles Lockhart, Geo. Woodson and Alex. Davidson $2 each; Geo Lang $4; Patrick Fahey, Edward Hearn and Tobias Anderson, $5 each; Charles Burns $30, of which $10 was for contempt of court.

G. W. Little, Robert Little, Geo. Small and Geo. Turner, four lads were arrested in the West Division yesterday for stealing hides, copper, poultry, etc. These lads belong to a gang of thieves which have given the police a great deal of trouble. They will be tried, to-day.

MICHIGAN AVENUE and Country residences are advertised for sale in another column.

NORTH'S NATIONAL THEATRE.—The play of the "Stranger" is announced at the National for this evening, with an unusually strong cast of characters. Mrs. T. S. Hamblin sustaining her celebrated part of Mrs. Haller. A variety of other attractive features are included in the bill.

THE SEWING MACHINES of Wheeler and Wilson Manufacturing Co., so well known in FAMILIES and among Dress, Corset, Shirt and Collar makers, and Clothing manufacturers, may be examined and ordered at the Office recently established for the better accommodation of the people of the West.

INFORMATION is wanted of John Melendry who came here from Norwalk, Ohio, 6 weeks ago, and since that time nothing has been heard from him by his family.

He intended to go into business here and he had $300 in gold with him. He was a thick set man, light complexion and hair. Any information concerning him will be gratefully received by his afflicted family, and can be left at the office of the Captain of Police.

ASTHMA.—JONAS WHITCOMB'S REMEDY, prepared from a German recipe, obtained by the late Jonas Whitcomb, in Europe. It is well known to have alleviated this disorder in his case, when all other appliances of medical skill had been abandoned by him in despair. In no case of purely Asthmatic character, has it failed to give immediate relief, and it has effected many permanent cures. Joseph Burnett & Co., Boston, Proprietors. For sale by J. H. Reed & Co. and Gale & Bro., Chicago, and by druggists generally, at $1 per bottle.

EDITORS TRIBUNE:—Be pleased to inform the Chicago *Journal* proprietors that the reason their compositors "have retained their situations so permanently," is because their disreputable workmen could find situations nowhere else. There is not a man in its News Room can carry away with him an honorable credential from his fellow craftsmen in this city. As to "prominent positions," the *Journal* cannot point to a single news hand in its employ who has ever graduated beyond a "blacksmith's" shop, and the issues of the paper daily attest the fact. The *Journal* can make no capital on showing up its long-narratived "two-thirders."
TYPOS.

REMOVAL.—We would respectfully inform our customers, and invite public attention to our removal to No. 108 Lake street, a few doors east of Clark, where, with increased room and facilities, we shall endeavor to supply their wants in the line of CLOTHING and FURNISHING GOODS for MEN and BOYS, READY-MADE and MADE TO ORDER, embracing the entire range of the trade. Having added very largely to our assortment of ready-made clothing, this department presents attractions which will be looked for in vain elsewhere in town. In it, our customers will find a far more comprehensive and varied assortment of seasonable garments than ever before, made up in our own superior style, and marked at the moderate prices for which our house has so long been celebrated.

THE BOYS CLOTHING DEPARTMENT forms a prominent feature of our new establishment, a large portion of it being devoted to that class of goods, all of which are entirely new, having been made up in New York within the past sixty days, and now being opened expressly for our Chicago city trade. The amount of stock in this department is greater than will be found in Chicago, is equal in quality to ordered work, and marked at New York prices.

A CUSTOM DEPARTMENT, under the charge of Mr. J. T. Goldsmith, (formerly with Messrs. Devlin & Co., Broadway, N. Y.) has also been added to our business, which will be found worthy the patronage of those who prefer to have clothes made to their own order, as we have spared neither pains nor expense to procure skillful cutters and workmen, as also the most *recherche* assortment of piece goods, trimmings, &c., &c.

In this department, as in all others, our prices will be found as low, and the quality of our goods equal to that of any first rate house in New York.
my9 TAPPAN BROTHERS, 108 Lake street.

SALVATION OFFERED.—We are pleased to hear that Dr. Thomas Tilton will remain in Chicago a few weeks longer, for the purpose of supplying the consumptive, and asthmatic as well as those suffering with cough, cold, nervous debility, bronchitis, etc., with his father-in-law's, (old Dr. H. James) extract of Cannabis Indica. He came here at the solicitation of many philanthropists, and although his stay has been brief, it has been signalized by gigantic and blessed results. He has been the means, through the medicine specified, of curing more consumption here, in that short time, than was cured for years previous. Indeed, until he came here a cured case of consumption was never heard of in the State. As a specimen of what the wonderful Cannabis Indica will do, we will state that no matter how severe a fresh cold may be, it will remove all traces thereof in forty-eight hours. By-the-way this great preparation is the only one known in medicine that exhilarates, yet has no reactionary power. Go and see Dr. Tilton, he is still at room 11, Massasoit House, opposite the Mammoth depot. Dr. Tilton has all his father-in-law's great and unique medicines, and can cure consumption, asthma, bronchitis, nervous debility, coughs, colds, and various other dangerous and obstinate afflictions with comparative ease. If you are curious to ascertain the exact condition of your lungs, let him apply the Spiro-Dynamter. In one moment you will have received the requisite information. Dr. Tilton will remain in Chicago until the 1st of July.

By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four postage stamps, (12 cents) a receipt will be sent in return free of charge to any part of the Union. He will remain until the 1st of July.
tf. DR. TILTON, Massasoit House.

MARRIED,

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE,
Friday Evening, May 8, 1857.

A number of boats arrived from the Illinois River by Canal to-day and last night—a dozen or more laden with corn—but nearly all of it was delivered on contract. By railroad, also, Flour, Wheat and Corn are slightly increasing, the present high prices bringing it out of farmers hands. We notice more animation in the streets and in the produce market than was observable yesterday. This is owing to the favorable change in the weather, increased receipts, and the arrival of canal boats. There is a good feeling among holders since dispatches from New York this afternoon of a rise in breadstuffs, and prices are very firm, without however, much if any advancing tendency for many articles. We notice transactions and the state of the market in detail as follows:

FLOUR—Sale of 40 bbls Burlington Mills at $6.12½, and 300 bbls "Excelsior" mills at $5.81¼, the latter on board by 25th inst, payable on delivery.

FREIGHTS—The last charter for the lower lakes, heard of, was a vessel yesterday, to go to Milwaukee for wheat to Kingston, at 8c. Some 10,000 bbls of Flour are being shipped by a firm at 25c ₱ bbl, by propellor to Buffalo, on contract, made 10 days since; 3,000 bbls of it go on the Mohawk, of the W T Co's, propellers, the rest on the Pomona. Mt Vernon, &c. Vessels are seeking lumber freights, for want of anything else to do, 3 vessels go to Saginaw for lumber at $4 ₱ M, at which it is dull; a vessel gets $4.50 ₱ M, from Collingwood; $3 ₱ M was paid from Pier Marquette, and $2.25 ₱ M offered from Muskegon.

WHEAT—One of our city dealers bought a cargo of Club at Milwaukee to-day at $1.22 and re-sold at $1.25; we give sales here of 15,000 and 10,000 bu Spring on board Tuesday at $1.28; and 11,000 bu Milwaukee Club at $1.26, on board 1st half June, buyer's option; a cargo of 10,000 bu Spring at $1.26 on board by 20th inst, and 8,000 bu at $1.25 to-day; 500 bu Spring to mill at $1.22@1.25, and Fear lots to arrive at $1.34, all before the New York news.

CORN—Two boat loads at 61c afloat now; 2 do at 62c afloat; 20,000 bu at 62c on board last half June; 10,000 bu 1st to 15th of June at 60c, and; 10,000 bu at 62c on board same time; 15,000 bu at 62c on board last half May; a cargo at the extreme figure of 64c on board Monday next.

OATS—Two lots of 4,000 bu each sold at 45c on board; 1000 bu at 45c on board; 500 bu in bags at depot at 40c; for the cargo of the propeller Kenosha, 46c on board was offered and refused. A large demand for the local trade and the lumber country, gives the market great firmness and an upward tendency.

BARLEY in demand for seed, and held at extreme rates—$1.62@1.65 for 48 lbs. No receipts and little sold.

RYE in demand at 80c@[illegible]

MESS PORK—Sale of 50 bbls on an order from Milwaukee at $22.45 ₱ bbl, at which it is firmly held by the few holders.

MESS BEEF dull at $14@15 ₱ bbl.

TALLOW—Sale of 30 bbls at 10½ ₱ lb.

LARD firm at 14c ₱ lb.

HAMS—City cured hams 12½c ₱ lb; shoulders 10c. A very choice sugar-cured article from Owsley & Co. Louisville, Ky. brings 13c[illegible]

HOGS—Sale of [illegible]

POTATOES are not so active, but in fair demand [illegible]

SALT—Heavy arrivals by Lake and dull market at $1.[illegible] ₱ bbl for fine and [illegible]

[illegible]

HIGHWINES—Firm at [illegible] ₱ gallon. [illegible]

BUTTER—[illegible]

CHEESE—[illegible]

FISH—[illegible]

POULTRY.—Chickens and Turkeys are very scarce, and live chickens bring 30c each; dressed [illegible] Turkeys 12c per lb.

SUGARS—[illegible]

MOLASSES—[illegible]

COFFEE—[illegible]

[illegible]

CINCINNATI HAMS.—Porkopolis and other Ohio River cities produce most excellent Hams, and find a market for them everywhere. We observe that Mr. Vane, on River street does quite a business in the sale of Owsley & Co's. Louisville cured canvassed Hams. They sell by the cask at 13c ₱ a pound. Other grades only bring from 12½ to 13½c.

HARBOR MASTERS' OFFICE—WHERE IS IT?—We have of late heard great complaint among those interested in Shipping, at their not being able to find a Harbor Master; yesterday we learned that the city has not as yet appointed a place for them to office, consequently when they are most wanted they cannot be found. One of them, Mr. Huguenin, like the flying Dutchman, can be seen accompanied by a little trumpeter, and in all places; but the other, Mr. Fuller, is to the sailing community quite a stranger. This should not be. Our Harbor Masters should have an office, and have it centrally located on the Main Branch, and when on duty should have a desk in the office for those wanting their services to leave orders. There is scarcely a day passes that we do not see altercations between Masters of Vessels and canal boats, and owners of docks, where if they could know where to find the Harbor Master, the whole thing might be obviated, and a great deal of time and trouble saved. It is a well known fact, that sailors when they get possession of a dock berth, will not give it up even at the request of the owners of the property, unless ordered to leave by the Harbor Master, and it not unfrequently happens that a man has to keep a whole gang of men idle for sometimes half a day, before he can find the Harbor Master, in order to compel the obstinate Captain to move his vessel. Now this is too much of a tax on business men, and for the sake of what an office rent would cost the city, they should not be compelled to suffer under it. Therefore his Highness the Mayor should, among his other reforms, give this matter his attention likewise. Procure the office, gentlemen.

DEATH OF A PROMINENT DEALER.—The Board of Trade was called to order yesterday by Chas. Walker, its President, to announce the sudden death of one of its oldest members, Mr. John Radcliffe. It has been but a few days since Mr. R. was on 'Change, busily engaged in trade, but he was but recently up from a bed of sickness, and his sudden death was not altogether unexpected by him. He was a native of the Isle of Man, but for a long time a citizen of Chicago. The funeral, we believe, takes place from his late residence this evening. The following Resolutions were passed by the Board of Trade:

Resolved, That this Board receive with feelings of the profoundest sorrow, the melancholy intelligence of the death of their late fellow member, Mr. John Radcliffe.

Resolved, That in this afflictive dispensation of Providence, Society is called to mourn the loss of a valuable member, and this Board of Trade an upright, honorable, and active Merchant and Business Man, and one whose relations to them as such, have ever been eminently worthy and honorable character.

Resolved, That this Board sympathize deeply with the family and friends of their late member, in their painful bereavement.

Resolved, That as a tribute of respect to the virtues of the deceased, the members of the Board will attend the funeral services.

New York Dry Goods Trade.

This department of business is excessively dull, and the prospect of any improvement is very remote, and goods [illegible]

[illegible]

The jobbers are doing a fair share of trade for the season, principally with the extreme Northern States. Brown Sheetings and Shirtings are unchanged, but to effect large sales, a slight concession would have to be made, notwithstanding firmness of Cotton. For Brown, Bleached and Blue Drills, there has been a little demand, in small lots, for the South American and China markets, at the usual concession of one-eighth of a cent from 9, 9¼, and 9½ cents. No sales of moment in Printing Cloths. Cotton Ducks sell at the usual rates. [illegible] for No's 1 and 2 [illegible] Prints rather quiet and most Printers are offering their goods at slight concessions from opening rates. Nothing noticeable in any other description of Cotton.

Woolens are not improved. We notice little demand for Spring fabrics. The Fall work is purchased, to some extent by the Clothiers at full rates. But little doing in Foreign Goods at private sale. The auctions continue to monopolize business, and the knights of the hammer are reaping rich harvests out of the misfortunes of the importers.

The following is a comparative statement of the imports of Dry Goods at New York for the week and since January 1st:—

MARINE INTELLIGENCE.

FIRST CANAL BOATS FROM THE RIVER.—Four canal boats with corn from Pekin, on the Illinois River, reached Flint & Wheeler's warehouse Thursday night; the Norton and Lockport, from the same point, with 4,300 bush old corn each, reached Ford's warehouse yesterday. Numbers of others from Ottawa and other points below, reached Munn & Gill's and other elevators on the docks yesterday, among them the Ottawa, Oregon, Illinois, Bristol, &c. The prospect is for considerable Corn to arrive now from the Canal; but most of it is already contracted for; some 120,000 bushels of it, disposed of by one firm, and probably most of the balance by other dealers.

ICE IN THE NORTH.—The brig McBride left here the 29th ult., (over a week ago,) for Grand Traverse; not being able to get anywhere near for the ice, she put for Green Bay, and again being unable to enter for the same cause, she left "Death's Door" the 3d inst. After playing the "Flying Dutchman" the rest of the week, she brought up at Grand River Thursday, where she is loading with lumber for this city. So the lumber country is hardly yet opened up to navigation.

NO COLLINGWOOD LINE.—The interested being unsuccessful in getting steamers, there is no Collingwood Line this season, either to this port or Green Bay. The consequence is, emigrants from abroad through Canada for the Green Bay country and other parts of Wisconsin, have to come by way of the Grand Trunk, Great Western, and Michigan Central to Chicago. A dispatch from Montreal yesterday, stated that a number of Germans were there for Green Bay, making inquiries about this route. This makes large traffic for the Chicago and Milwaukee passenger boats. The Planet and Traveller in this route are now getting considerable travel.

PORT OF BUFFALO.—Cleared, May 5th, for Chicago: propellers Roxbury and Illinois, brig Constellation, schooners Clyde, Miami, Belle, Hurricane and Mt. Vernon.

Convicted of Murder.

HOLLIDAYSBURG, PA., May 8.

McKinn was last night convicted of murder in the first degree, and was this morning sentenced to be executed, for the murder of Norcrass. He strongly protested his innocence before the court, asserting that his conviction was effected unfairly, by the perjury of witnesses.

Break in the Genesee Valley Canal.

ALBANY, May 8.

There is a break in the Genesee Valley Canal which it will take twenty-four hours to repair. As this end of the Canal is now in good order, and no breaks at present reported, boats now clearing from Albany will soon be able to get through without delay.

The rumor of a break in the Geneca River and Port Byron acqueduct is ascertained to be unfounded. The whole of the middle division is ready for the passage of boats, and an active business is doing.

High water on the Oswego canal will prevent its navigation for several days.

Burdell Trial.

NEW YORK, May 8.

Helen Cunningham testified that she had no knowledge of the way of Dr. Burdell's death, the way he was killed, or who committed the homicide.

Augusta Cunningham made similar statements.

The case closed for defence.

The District Attorney said he should not introduce rebutting testimony.

The Court said it would allow four hours to each counsel to sum up.

The Court then adjourned to Saturday.

NEW ORLEANS, May 7.

A meeting of citizens will be held to-night to devise means for the relief of the returned filibusters, also to raise $500 advanced for their passage by Captain Dunlap, of the steamer Tartar.

AUGUSTA, GA., May 8.

Mr. Brougham has been elected to Congress, from South Carolina, from the District represented by Preston S. Brooks, by 16,000 majority.

WASHINGTON, May 8.

New Orleans papers of the 30th ult., are received. The opinion is divided, as to the permanent injury to the sugar crop, by the late cold weather. The cotton crop is materially damaged.

HALIFAX, May 8.

The steamer America from Boston arrived at midnight. She sailed at 2 o'clock for Liverpool.

The weather is clear and calm.

NEW YORK, May 8.

Helen Cunninham gave testimony in the Burdell case, but nothing new was elicited.—The Judge pronounced that the testimony on both sides will be finished to-night.

It is said Gov. King will offer a reward of $500 for the capture of the persons who set fire to the quarantine buildings.

DAYTON, May 8.

A German blacksmith, named Henry Salthouse, was murdered last night, at a grocery kept by Philip Walsh. He was attacked by four other Germans, dragged out of the house, and the ruffians attacked him with knives and bricks.

The names of the murderers are as follows: Geo. Fisher, John Fatler, Martin Ludwick and Peter Lutz.

This is the second murder that has occurred in Dayton this week, and the victims in both cases were blacksmiths. The murderers have been arrested and are now in jail.

NEW YORK, May 8.

Wm. Henry Quackenbush, Benj. Purcell and Francis Hammond were arrested by the special agent of the Post Office Department on charge of stealing from the Ogdensburg mail bags on on the 12th ult., a letter containing two promissory notes to the value of $200 each directed to Gaspard, Hopkins & Co. They were held to answer.

It is supposed that the Cunard Steamship Co. and Com. Vanderbilt are competitors for the purchase of the Quarantine grounds of Staten Island. The property is valued at over half a million.

Valuable Farming Lands
At Auction,
In Grundy, Will, Livingston, And Kankakee Counties, Illinois.
AMONG THE MANY SALES OF LAND to be made in Chicago this Spring, the following list comprises probably the choicest Lands that will be presented at Public Sale, all of which have been selected with great care and by competent judges. The Sale will be at my Salesroom,
No. 16 Dearborn St., on Tuesday, May 19, 1857,
Commencing at 10 o'clock A. M., and to continue until all are sold.
The Sale is one of importance, and we not only invite the attention of speculators to this rare opportunity of making selections, but Farmers, and those wishing to provide homes for themselves in good neighborhoods and easy of access to the great North-Western Mart, CHICAGO. The following comprise a part of the list:
IN GRUNDY COUNTY,
The N. E. quarter of Section 22, T. 34, N. of Range 7 E—160 acres Prairie land, 3 miles from Morris, on the Rock Island Railroad, and sixty miles from Chicago.
IN WILL COUNTY:
S. W. quarter and W. half of the N. W. quarter of Section 28, T. 34, N. of Range 10 E—240 acres high rolling Prairie, eight miles from Joliet, one-half mile from Elwood on the Chicago, Alton & St. Louis Railroad, and forty-eight miles from Chicago.
IN LIVINGSTON COUNTY:
S. half of Section 1, N. half of Section 12, S. E. quarter of Section 2, N. half and S. E. quarter of the N. E. quarter of Section 11—320 acres, all in T. 30, N. of Range 8 E. of the Third principal meridian.
IN KANKAKEE COUNTY:
S. W. quarter of Section 4, S. half of Section 5, S. half of Section 6, N. half of Section 7, N. half of Section 8—[illegible] acres, all in T. 30, N. of Range 9 E. of Third principal meridian.
These Lands in Livingston and Kankakee counties, are in one body, four miles from East to West, and one mile from North to South. They were selected by the owner with great care, assisted by a competent surveyor; are first-class lands for Grain, Grass, or Stock. The soil is a three-feet loam, well mixed with sand, on a bed of clay. The surface is undulating, and the sloughs drain the surface water and supply stock. The best well-water is obtained at 18 to 20 feet. This body of land is 4 miles from Timber, 8 miles from the Illinois Canal at Morris, 16 miles from Kankakee City on the Chicago branch of the Illinois Central Railroad, 14 miles from Wilmington on the Kankakee River 6½ miles from Dwight, and 5½ miles from Gardiner, on the Chicago, Alton, and St. Louis Railroad. Gardiner is 64 miles from Chicago. Located as these lands are in the neighborhood of so many cities, towns, villages, and thriving settlements, it is deemed unnecessary to say more about them, as those wishing to buy will go to see them, and those not prepared to buy will wonder why they were not, after they see these glorious lands at such low prices, in the hands of those more wide-awake than themselves.
Terms of Sale:—One Quarter Cash; Balance, in One, Two, and Three Years, with interest at 6 per cent. per annum, payable annually.

Accompanying this Magnificent Troupe, is the greatest Musical Wonder of the Age,
THE CALLIOPE!
A stupendous and harmonious Instrument, played with Steam Power, the only one now on exhibition, and equal in power to a Brass Band composed of more than a thousand musicians.
IT CAN BE HEARD FOR MILES AROUND,
While its notes are as clear and harmonious as those of a full and perfect Orchestra.
The Calliope, Drawn by 40 Horses,
Four abreast, will precede the Grand Procession into the city on the morning of Exhibition.
THREE POPULAR CLOWNS:
KEMP, the great English Clown;
TOM LINTON, the Trick and Stilt Clown;
BOB SMITH, the Buffo singer.
Among the leading features of the Quincepletal Troupe are a party of
CHINESE JUGGLERS AND ARTISTS,
Recently arrived from the Celestial Empire, composed of Tan-chi-Hoang, Klang-ce, and Chow-chum, with their Assistants, in all their curious and multifarious feats of ORIENTAL NECROMANCY AND SKILL,
Magic Transformations and Deceptions, precisely the same as they were exhibited by the Celestials two thousand years ago, and never before the present season allowed to be looked upon by "Outside Barbarians."

From all the principal European Amphitheatres. In the course of the Entertainments,
MADAME DEBACH WILL RIDE SIX HORSES,
In the character of Diana, Goddess of the Chase.
MONS. DEBACH in an extraordinary act of Juggling on Horseback, never before performed, though frequently illustrated in various show bills, entitled
LE JUNGLEUR A CHEVAL.
During this act, Mons. DeBach lies upon the back of his horse, and tosses large wooden globes about as he goes around the ring, catching and balancing them again upon his feet.
ARABIAN ACROBATS.
Among the wandering Children of the Desert who appear in this Exhibition, is
AZI-CHERIFF,
The Supple Jointed Artist, called the Snake of the Desert.
It is impossible to give an accurate description of this wonderful man's performances. Accompanying Azi-Cheriff, are Ben-Fez, Hassen-Ali, and Hamet the Jumper, all from the burning plains of Arabia, and who will give true illustrations of the Games, Sports and Festivities of the wandering Arabs.
The following distinguished Lady Equestriennes will also appear in various acts—

Grand Ascension upon a Single Wire by a Lady.
Previous to the commencement of the Afternoon Performances, and immediately before opening the doors of Nixon & Kemp's Great Eastern Circus, M'lle LOUISE will make a terrific Ascension upon a Single Wire, extending from the ground 500 feet to the head of the Circus flag-staff, an elevation of 80 or 90 feet. Persons living at a distance from the place where M'lle Louise is advertised to make her Grand Ascension, had better arrange matters so as to enable them to arrive on the ground in the forenoon, in order to be in time to witness the grand feat, which comes off outside the canvas, at about half-past one o'clock P. M. During the Ascension, the Calliope will be played near the Circus.
Immediately after the Wire Ascension, the Calliope will be placed inside the great Pavilion, where the works will be open to inspection for the satisfaction of the audience.
The Managers also invite any lady among the audience to play upon the steam instrument. It is played with a finger-board, in the same manner as a Piano Forte.

DAILY TRIBUNE.

No. 53 CLARK STREET.

CITY OF CHICAGO.

Saturday Morning..............May 9, 1857.

Joliet and Chicago Railroad.

Arrangements were made yesterday at Joliet for putting this road under contract and completing it during the present season. We learn that the work will be undertaken by eight share holders, L. P. SANGER, GEO. BARNETT, J. A. MATTESON and their associates, and that it will be carried on without the issue of bonds or the solicitation of stock subscriptions from parties not immediately interested; and that when the road is in running order it will be leased to the St. Louis, Alton and Chicago road upon terms that will be advantageous to all concerned.

The St. Louis and Chicago road has long felt the want of a track from Joliet and Chicago, under its exclusive control, which want this new road will supply. It will also open up that region of country bordering on the canal and will bring us into close communication with Lockport, one of the pleasantest and most delightful towns in the State. We trust that the enterprise may go forward.

Indianapolis Election.

The vote for Mayor was a little larger than we stated it yesterday viz:

Wallace, Rep.	1776
Taylor, Dem.	1625
Rep. maj.	151

The Common Council is also Republican.

Modern Spiritualism.

On the third page of the TRIBUNE, we print a few letters touching this prolific subject, with none of which, except perhaps the first, will the great mass of our readers agree. While we are willing to give the advocates and opponents of this new faith a hearing, we must exhort them to be exceedingly brief in their communications. Variety in a daily journal is indispensable, and we cannot undertake to tire our readers with prolix or wandering dissertations upon this or any other matter whatever.

Chiniquy and † Anthony.

A Catholic, who may perhaps be recognized by his initials, devotes a column to a review of the late pastoral address of the Bishop of Cydonia, a Canadian ecclesiastic who, uninvited, has traveled out of his province for the purpose of taking part in the controversy now going on between the French Catholics of Illinois and † Anthony, the Bishop of this diocese. Our correspondent administers to him a well merited rebuke, while he by no means neglects to touch Bishop O'Regan on the raw. His letter will doubtless be generally read both by Catholics who have felt the hardness of terms to which they are subjected by their ecclesiastical rulers, and by Protestants whose interest in the dispute has steadily increased since we had the independence to give up a portion of our columns to the use of the fearless members of the Romish Church who will not submit like slaves to all that their priests and bishops may impose. Indeed the dispute has gradually assumed more and more importance until now, it has attracted the attention of Catholic communities throughout the whole country. We hear that Father Chiniquy, the good priest of St. Anne, is in daily receipt of letters of sympathy from his brethren who are blessing him for the resistance which he is making, and that they exhort him to stand fast to the just principles that he has heretofore maintained.

The New York City Government.

The snarl into which the government of New York City got, through the rebellious conduct of Mayor WOOD, is being unravelled and order restored. The last injunction has been dissolved, and the Board of Commissioners have been fully organized. Mayor Wood has been beaten at every point, and his tyrannical exercise of power, for mere partizan ends, destroyed.

The Board tendered the office of Chief of Police to MATSELL, but he declined; it was then conferred on Ex-Judge WHITING, who is a Democrat, which, in addition to securing a first rate officer, shuts the mouths of those who have been brawling that the Board, being Republicans, would use their authority to promote mere partisan purposes, just as Wood had always done. Mr. WHITING, says the N. Y. *Tribune*, "is a Hardshell Democrat, with some proclivities toward Nativism, but none at all toward 'Black Republicanism.' He has ability, energy, experience and nerve; and rascality and ruffianism will be at a discount in this city and its suburbs whenever he shall have fairly possessed himself of the machinery for preserving order, life and property, which has been so wisely confided to his hands."

The N. Y. *Times* made a fool of itself by siding with Wood and trying to cut under the *Herald* in currying favor with the lower rabble. It must feel ridiculous now, at the result of its lost labors of love.

Parkville—Change of Tone.

A gentleman who spent a few days at Parkville, Mo., last week, informs us that a change has come over the dreams of the people of that town and vicinity, on the slavery question. A year ago, the principal proprietor, Mr. PARKS, was driven away by a pro-slavery mob; the Parkville *Luminary* was thrown into the Missouri river, and death to all "Abolitionists" was the order of the day. But now the ruffians are as docile as kittens. Parks was received back with open arms; he is now courted, flattered and obeyed by the very men who eighteen months ago, thirsted for his blood, notwithstanding he is much bolder in uttering his no-slavery sentiments, than when he was mobbed.

Emancipation principles are rapidly spreading; large numbers of Northern emigrants are buying farms in the neighborhood and settling there. Our informant says, that the bitter pro Slavery men are selling out and moving South, at the rate of not less than a dozen a day, and taking their slaves with them. A committee of slaveholders from the Platte country, is now in Texas, making a selection of lands for their neighbors, preparatory to a very large emigration of slaveholders from Western Missouri. A great many Northern men who started from home for Kansas or Nebraska, have bought farms and settled in Western Missouri, and boldly avow their Free Soil and Emancipation sentiments. Splendid lands, well improved, have been sold to the "Yankees" for $16, $12 and $10 per acre, the owners taking the purchase money, gathering up their negroes and decamping for Texas.

☞ If the Editor of the *Prairie Farmer* don't understand the subject of farming any better than he does Chicago Parks and taxation, he had better turn his attention to something else.

He states that the "taxable property of Chicago was last year assessed at $75,000,000." Now the fact is, that the assessed valuation of real and personal estate, as made by the City Assessors, for the year 1856, is as follows:

	Real Estate.	Personal.	Total.
South Division	[illegible]	[illegible]	[illegible]
West Division	[illegible]	[illegible]	[illegible]
North Division	[illegible]	[illegible]	[illegible]
	[illegible]	[illegible]	[illegible]

This is only forty-four millions *less* than the *Farmer* man has it. Not much of a blunder for *him*. Penn laid out parks in Philadelphia when land cost nothing, which is a very different thing from paying, by taxation $5,000 to $25,000 per acre, for park purposes. The Boston Commons was laid out under Colonial Government, without cost to the people of Boston. So was the City Hall and Battery parks of New York.

The South side has now a beautiful park along the Lake shore, for a whole mile, facing the finest street in the city, and by filling the space covered by water, it can be made the most beautiful promenade in the West. Would it not be better to improve and adorn it, than to become a prey of sharpers and speculators who desire to get rid of their "out lots" at a round price, at the expense of the tax payers, under the pretext of selling the South siders a park? Let the *Farmer* man devote his attention to the interests of the rural districts, and not exhibit his ignorance of city matters so palpably as he has done.

THE NEW CENT.—The mint will begin on the 25th of May, to pay out the cents of the new issue in exchange for Spanish and Mexican fractions of a dollar, and at the nominal rates, or in exchange for the copper cent now in circulation. The silver or copper coins must be presented in even sums of $5 and not exceeding $50. Let everybody send them the old copper heads.

Grain Resources of the Northwest.

From careful inquiry, personally made both of people from the country and along the lines of three of the principal roads leading into this city, we are convinced that the expectation indulged in by some of our cotemporaries in regard to the quantity of grain to come forward to this market during the present season, are not founded on facts. The crop of last year was by no means remarkable; it has probably been largely over-estimated, as the events of the Spring and Summer will prove. Though it was large enough to have left, in an ordinary season, a very considerable surplus in the hands of the farmers, the extraordinary duration of the winter has cleaned out their granaries and cribs entirely; and even in our own State thousands of men who usually have corn and oats to sell, have been for a month past and are yet buying from their neighbors to keep their cattle and horses alive until a few warm and pleasant days bring out the new grass. All along the Mississippi on the Iowa side, there is the greatest distress among farmers for feed, and many of them, so great is the scarcity, are losing entire herds by starvation. A gentleman from Maquoketa tells us that in that region—by the way, one of the richest and most productive parts of Iowa—cattle are dying by hundreds, and that farmers who hauled their surplus to the river and sold it in the fall, are now buying it back by wagon loads at three times the prices they got for it six months ago. In the country west of Davenport, and about Iowa City, the same state of things exists. At Quincy the demand for corn to take over into Missouri, is much greater than the supply; and one distillery at least is buying grain at St. Louis and sending it up the river by the boat load to avoid stopping work, as it would do if obliged to depend upon home supplies. At Keokuk and Burlington the demand is very active and the supply small, as it is, indeed, in every other part of the West from which we have heard. Along the St. Louis and Chicago road there is more corn, but not half the usual quantity. Along the Galena Air Line, Galena and Chicago, the Chicago Burlington and Quincy and the Chicago and Rock Island roads, hardly a full crib is to be seen. In one word, the cattle have eaten up the entire surplus of corn, oats, hay, and in many places, the potatoes also. The winter has exceeded its usual length by fully forty days; and in those days the mischief has been done. Let the doubter take his pencil and make his own figures. There are in Illinois fully two million horses, mules, cows, oxen and other cattle. Admit that only a half of this number, saying nothing of the three millions sheep and swine, have required forty days extra feed, and then see what, after their wants were supplied, would be left of the very moderate crop of 1856. We know that there are dealers and journalists who think the alarm in regard to scarcity is unfounded, and that it is gotten up for purely speculative purposes; but we cannot agree with their conclusions, nor can we divine the source of the facts, if their conclusions are honest, upon which they are based. We have as outside parties devoted much time and patience to the inquiry, the aggregate results of which we have stated above, and our convictions are arrived at without the prompting of personal interest—without a shade more of sympathy for the bulls than we feel for the bears; and we are induced to publish them only because we conceive it to be a matter of the first importance to the business men of the country to be correctly informed as to the capabilities and resources of the territory to which they look for their trade. If the warning that may be gathered from our account, which, we admit, is doleful enough, will prevent any from overstocking, or from selling present stocks upon expectations of speedy pay, or if it will stimulate the farmers to sow and plant a wider area, and to practice more economy in the use of their hay and grain in subsequent seasons, we shall have accomplished all we desire.

Great Excitement in a Church.

The Lancaster (Pa.) *Express* gives the following account of a late bridal scene in the Episcopal Church of that city. It says:

The appearance of Mr. Fisher and Miss Diller, at about half-past seven o'clock, was the signal for a general and disgraceful scramble for available positions for witnessing the ceremonies. Many of those present appeared to have no regard for their own decency, or the sacred character of the house. They stood on the seats, and even scrambled on the back of the pews; the spectacle presented being more like what is sometimes seen in a circus, than we ever witnessed in a church. Amid this confusion the solemn and impressive ceremony was commenced by Rev. Jacob W. Diller, the brother of the happy bride; but, before its conclusion, the confusion was renewed in consequence of many persons becoming alarmed at the creaking of a bench in one of the galleries, which they supposed was the gallery itself giving way under the great weight upon it. The ceremony being over, the bridal party had scarcely retired from the church, when an old bench, which had been carried into the organ gallery, gave way under the weight of those standing upon it. This crash started a frightful panic. Some person in the gallery cried out that the gallery was falling, and a general stampede commenced in all parts of the church. The lower windows were thrown up, and used by many as a means of exit. One young gentleman was so terribly frightened that he quite forgot the young lady he escorted to church, and made a break through the nearest window, carrying with him the entire lower section of sash. He was quickly followed by a number of ladies, and others were prevented from leaping out by those on the inside who had presence of mind enough to see that there was no real danger, except that which arose from the panic. Several ladies got out of one of the gallery windows, descending on the vestry roof, and from thence into the churchyard. A number of ladies fainted, which, with the screaming and praying, the rattling of blinds and broken glass presented a frightful spectacle. Those under the gallery supposed to be falling, made a rush in the direction of the pulpit, overturning and slightly damaging the baptismal font, and carrying away the banister in front of the chapel.

☞ The Washington *Union* says there is now owing to that paper the enormous sum of $70,000 for back subscriptions. It announces that hereafter the business of the establishment will be conducted on strict cash principles. Incredible as this statement may seem, it is no doubt true. Very many less circulated papers than the Washington *Union* can show almost as shocking a state of affairs. The publishers of daily papers throughout the country are beginning to adopt the cash down system. It is the only safe one.

AN EDITOR'S VALEDICTORY.—The New York *Mirror* is responsible for the following. It is located, of course, "out West," but we think it suits the latitude and longitude of New York better than any point this side of the Catskills or Alleghanies:

"The undersigned retires from the editorial chair with the complete conviction that all is vanity. From the hour he started his paper to the present time he has been solicited to lie on every given subject, and can't remember having told a wholesome truth without diminishing his subscription list or making an enemy. Under these circumstances of trial, and having a thorough contempt for himself, he retires in order to recruit his moral condition."

LARGE WOOLEN MANUFACTORY SOLD.—The property of the Salisbury, (Mass.) manufacturing company, was sold at auction on Monday, for $225,000. SAMUEL J. MAY, of Boston, was the purchaser, for a company. The property has been valued at a million of dollars. It is the largest woolen manufactory in the United States. The works have been partially stopped for some time, but will now be put into vigorous operation again.

The publishing firm of Dix, Edwards & Co., (publishers of *Putnam's Monthly*) is dissolved, Messrs. It is by far the best monthly published in the United States.

FROM KANSAS.

[FROM OUR SPECIAL CORRESPONDENT.]

LEAVENWORTH CITY, K. T.,
Monday, May 4, 1857.

HOW JUSTICE IS ADMINISTERED IN KANSAS.

Some rich developments have been made in the U. S. District Court of late, which prove how debased and corrupt our Legal Tribunals in the Territory have been. On last Wednesday, the case of Henderson Smallwood, came up for trial before Judge Lecompte. Mr. Smallwood was among those who had acted as Judge at Reeder's election to Congress. For this offense, he was arrested and put under heavy bonds, but his trial was adjourned over several terms of the Court. At last, however, the day came when the case would be disposed of. When it was called up, Mr. Smallwood's counsel, requested to see the indictment against his client. After some little ridiculous investigation, it was announced that *there was no indictment*. No indictment—no presentment of any kind, and yet Mr. Smallwood had been arrested, and held to bail, upon what? Upon a mere bench warrant, which even lacked the signature of the Court.

And it now appears that Judge Lecompte has frequently been in the habit of imprisoning and fining Free State men upon the strength of bench warrants. Is it possible that the administration can endorse and uphold such infamous proceedings? Where may we look for protection, if our courts result in nothing more than rotten and corrupt machines to be worked and managed as the Southern oligarchy may determine?

When Mr. Smallwood's counsel—H. Miles Moore—discovered the exact position of affairs in the case, he moved for his client's discharge, with some twenty others, whose cases were exactly similar. The injustice to which these men had been subjected—the illegality of their being put under bonds without being indicted, and the fraudulent character of the whole proceedings, was exposed, and the iniquity of the Court revealed.

This put Judge Lecompte in a tight place. He doesn't care—let it be remembered—anything about law, or justice, or precedent, but decides cases to suit himself, and without regard to any other than personal or political considerations. That is to say, he never was guilty of even fining a Border Ruffian cut throat or a pro-slavery thief, but takes particular delight in imposing the most unjust penalties upon unoffending Free State men.

But here he was cornered. Some twenty men were before him charged with no crime, indicted for no offence. In fact they had violated no law and were at the time under illegal arrest. But then on the other hand, Lecompton knew they were all Free State men, and that in his estimation, is a capital crime of itself.

Hence was the "judicial dignitary" perplexed. The case bothered his wits amazingly.—Now, he would determine to condemn them all, then he would alter his mind from fear of the consequences. And thus wavering between resolution and doubt, he fell back for instruction and enlightenment upon the New York *Day Book* for which dastardly sheet the Judge has a deeper reverence, and a more profound veneration, than for the Bible itself. A bound volume is always on or under the desk, and he always consults it in perplexing cases as though it were an oracle.

At last fear triumphed over the worthy Lecompt's desire and he discharged the prisoners. It must indeed make an American blush for the honor of his country, when a Supreme Court is found, so wholly corrupt, as to cause the bailing, imprisonment and fining of Free State men on the strength and authority of an invalid bench warrant.

It is not only a violation of all law and justice, but it is converting legal tribunals into unholy agents of injustice and wrong, of persecution and tyranny, and is another proof of the stupendous "crime against Kansas" in which Judges, Senators and Presidents have been guiltily involved.

On Thursday Caleb May was tried for usurpation,—that is, for acting as judge at Reeder's election. The defense was ably and skillfully conducted by Messrs. Parrott, and Moore, and the trial resulted in a verdict of acquittal.

Some other political cases are on the docket, but it is difficult to say when (if ever) they will come up, as Judge Lecompte is afflicted with a sort of chronic laziness, which interferes materially with anything like despatch.

SPECULATION—NEW TOWNS, ETC.

Kansas is certainly a great country. The way towns and cities are springing into existence (on paper) is perfectly astonishing. About every other man in the Territory is a "Land Agent," who is (dis)-"interested" in any number of towns, each or all of which he can prove, beyond the shadow of a doubt, is destined to become the most important point in the country. It amuses me to have these gentlemen dilate and expatiate upon the advantages and prospects of the localities upon which they are speculating. With an innocent gravity and an earnest innocence, they portray, picture and embellish, until your fancy is captured by their "soft persuasion," and, upon the wings of imagination, you fly to a Utopean land and revel in all the beauty and glory of a newly-discovered Eden. But woe be unto those who are so "taken in" as to invest their funds in property on the strength of glowing representations, for there will be gnawing and gnashing of teeth when the "growing and thriving city, with its streets and its parks, and its school houses and churches, and people and shops" is found to be nothing but a high rocky bluff, shut out from all creation, settled by a few wild hogs, and inhabited by a small man with an immense family of dirty little brats who den together in a forlorn and dilapidated mud-cabin.

Emigrants must beware how they pay the least attention to the enthusiastic representations of Land Agents, and make up their mind to buy in no place until they have visited it and examined for themselves. There are plenty of good points in Kansas which must progress and prosper, but there are numerous other nominal towns which have nothing in the world to recommend them, and which have been started for nothing more than to enrich a few land holders at the expense of the innocent and unsuspecting.

Let me not be understood as inveighing against Land Agents as a class. I believe them to be (generally speaking) as honest and reliable as lawyers, ministers, and (hardly though) editors. By bringing capital into the country, by selecting favorable sites, and by furnishing the wherewithal necessary to the successful start of a new town, they certainly do much for the growth and prosperity of an undeveloped country. It is true they make money, and that their efforts and outlays are not exactly attributable to a pure philanthropy, but philanthropists are rare, though "martyrs" are numerous in Kansas, and the universal motto is, "put money in thy purse."

Now this is all right enough if not carried to an extreme. But here is the danger. Men get so wild after money that they "go it blind" in speculating, and thus advance the price of property to much more than its real value, thereby keeping out, or frightening off, a large per centage of the emigration that would else come here. Property in Kansas, that is in the settled portion, is already up to fictitious prices, and the injurious effect is being felt every day.

But this spirit of extravagant speculation seems to be one of the necessary evils, if evil it be, of a new country, and is something that time and common sense soon regulates, especially when a country is possessed of such magnificent resources, and incalculable wealth, as nature has lavished upon Kansas.

Towns and cities should be created by the necessities of the country. But the case is here reversed. Towns are built first, independent of the country. Still the country is being settled so rapidly that the success of a town is principally dependent upon its favorable site, and the energy, ability and enterprise of those engaged in giving it a start.

Still I would again caution emigrants always to examine for themselves before purchasing property in new towns, and to avoid placing any confidence in general rumors, extravagant assertions, or flying reports.

THE INDIAN WAR IN NEBRASKA.

"Wars and rumors of wars," have been constantly reaching us from Nebraska. At one time a person would be almost inclined to believe that the Indians had risen unitedly, attacked the different settlements, and slaughtered and plundered indiscriminately. There certainly has been great excitement in our sister Territory on the subject, but it was entirely superfluous and uncalled for. The troubles originated in this wise: A Nebraska tribe of Indians ceded to the United States Government a certain quantity of land, and afterwards sold the same district to another tribe for one hundred ponies. The squatters knowing that Government owned the land, settled upon it, whereupon the Indians who had bought for one hundred ponies, thinking the whites were infringing on their rights, took occasion to repay them by thieving and depredating. By way of revenge, the settlers armed themselves, and shot down some of the red skins. This, of course, roused the "Injins' blood," and they grew thirsty for "satisfaction." As reports of their intentions reached the squatters, it gave cause to much fear and alarm, and large numbers marched to the more settled portions of the Territory, and gave exaggerated accounts of what had transpired. The Indian Agent informed himself of the actual state of affairs, explained the matter to the excited tribe, and promised them that the Government would see to it that they were remunerated, and protected in their rights. At this they gave up all warlike designs, and the settlers were commencing to return to their claims.

It is not improbable that a war may occur between the two tribes who "traded" for the land in question; but no one will object to this, as the sooner the Indians are exterminated the better, and there is no speedier way of realizing such a result than by getting the Indians to fight with each other.

This may sound very harsh and cruel to some soft-hearted readers, but a person who has seen as much of Indians as I have will endorse the sentiment throughout. I have very little sympathy and much less respect for the red-skins, and will not shed many tears over their complete extermination.

ATCHISON TO BE PURGED.

The well-posted readers of the *Tribune* need not be told what a place Atchison has heretofore been—the vilest of all vile Border Ruffian holes; the home of the infamous Stringfellow; the nucleus of all the murderous gangs that have infested the Territory. In fact, it would be idle to try and describe its [illegible] revolting character. Well, it is reported that "the [illegible] Abolitionists," [illegible] bought out that vile sheet known as the *Squatter Sovereign*, established [illegible] an able Free State paper; and now intend to go to work in earnest, [illegible] it will become one of the most desirable points on the river, as its natural advantages and geographical position are superior to any place in Kansas except Leavenworth. This is one of the greatest events that has transpired in Kansas. What will the South say or think about it?

HIGH TREASON.

The trial of the Free State prisoners for high treason, is to come off this week at Lecompte. It is the prevailing opinion that *nolle prosequis* will be entered, and the prisoners discharged. The Supreme Court would like very much to have the prisoners convicted and hung, but they have grown mightily afraid of the people in Kansas, of late, and think that extreme measures on their part might beget a terrible commotion in the Territory, in which event they are inclined to believe they would be butchered off rather unceremoniously. The Free State party of Kansas has grown so powerful and produced such an improved public sentiment, that all the decisions of all the Supreme Courts in the nation, backed by the power of the federal government, would be unable to enforce the bogus laws for the punishment of so called treason or anything else. Governor Robinson and other Free State men who are indicted, will be present at Lecompton to stand their trials, and able Council has been secured to conduct the defense. The result of these trials is looked for with intense interest.

GENERAL NEWS ITEMS.

Wilson Shannon is at present hereabouts. He is very little thought of by the Pro-Slavery party, and is scorned and despised by the Free State men. He has to pay pretty dearly for his apostasy.

The weather is now warm and pleasant, but the spring is very backward, and the season has been anything but agreeable. A good warm rain is very much needed. The "comet" is looked upon as responsible for the delinquent vegetation. It ought to be ashamed of itself.

The emigration continues as great as ever. Every boat is loaded down, and the cry is that "more are coming." It beats California all to pieces, and will give Kansas a tremendous population before fall. This is as it should be.

There is still considerable suffering in the Territory among the Free State families, and those who are charitably disposed, can do much good by contributing means to the proper committees.

Prof. Daniels visited our city a few days since. He reports very favorably in regard to the emigration, but thinks the people of the States ought to bestir themselves in raising funds and clothing for the sick and needy. I think so too.

Gen. Harney is expected at Fort Leavenworth daily. When he arrives Col. Sumner goes out to chastise some of the Indian tribes.

The land sales have all been postponed, and the first will not come off until the latter part of June. Intelligence of the time will reach Chicago before we have it here.

Gov. Walker is expected in Kansas some time during the present month. Some say that he does not intend coming out here at all. This is a mistake. Walker thinks his course and policy in Kansas is to make him our next President. This sounds like a pretty good joke.

The Kansas river is declared unnavigable, and all persons going into the Territory should take tickets direct to Leavenworth city, which is the nearest point to Lawrence. Daily lines of stages run between both places, and passengers are carried through for three dollars.

Every house in all the prominent cities of Kansas is filled to overflowing, and families who intend emigrating had better supply themselves with a good tent and a supply of provisions. Neither will come amiss.

The Jubilee at Memphis.

Railroad jubilees and celebrations are much more common at the North than at the South, and have been supposed to be applicable only to the former region. But one of the grandest jubilees, both in point of style and arrangement, and on account of the events it celebrated, came off in the Southern city of Memphis a few days ago. The occasion was the completion of the Memphis and Charleston Railroad, connecting the Mississippi with the southeastern seaboard at several points. There were delegations from nearly all the Southern States, including the Governors of several of them, Mayors of cities, Fire and Military Companies, and other organizations.

There were 15,000 guests in the city, whose arrival was welcomed by the firing of guns and the booming of artillery. A triumphal arch, decked with flowers, adorned one of the streets, through which the procession passed. Altogether, if we are to believe the accounts received from the papers, the celebration was a brilliant affair.

Memphis is blessed with a system of railroads which is destined to make her one of the first cities of the South. She is already connected with Savannah and Charleston, and with North Alabama and North Mississippi; she is reaching vigorously towards the Ohio, and towards Little Rock, and will, in a few years, be in railroad connection with every part of the Union. Her citizens have made sacrifices to gain these results, but the results repay them for the sacrifices.—*St. Louis Intelligencer, 7th inst.*

FAILURE OF THREE DRY GOODS JOBBING HOUSES.—We regret to learn that three houses engaged in the dry goods jobbing trade in this city were unable to meet their business engagements yesterday, and were obliged to suspend payment. They were Messrs. Whitney, Fenno & Co.; Messrs. Chapman, Lord & Hale; and Messrs. Shaw, Sampson & Bramhall. The amount of liabilities of the several firms we do not hear. Hitherto, our merchants have nobly withstood the general depression in business and the pressure in the money market. We hope they will still be able to ride out the storm.

The failure of Messrs. Whitney, Fenno & Co. is attributable to large defalcations on the part of their chief clerk. The amount appropriated is extremely uncertain and must remain so until the books of the concern are thoroughly examined. It is, however, variously estimated from $50,000 to $100,000. Some of the particulars of this defalcation, as we learn them from various authentic sources, are as follows:

About two months ago, suspicions were aroused in the minds of the firm that their head clerk, Jonathan Hassard, had been appropriating the funds of the concern. The origin of this suspicion was in the fact that frequent remittances of money from customers of the firm were never received, denoting an unmistakable interception on the part of some one acquainted with the business of the concern. To the end of ferreting out the rogue, a trap was set at the Post Office, into which Hassard was incontinently lured, made fast and obliged to confess his guilt. We understand that he has confessed to having appropriated a large amount and under a promise of release, disgorged a part of his ill-gotten gains, a considerable portion of which is said to be invested in very doubtful securities, and regarded to be of small value.

Hassard is about thirty years of age, and has been in the employment of the firm five years. The discovery of his dishonesty was a matter of extreme surprise to his employers. Under the arrangement above referred to he left this country about three weeks ago.—*Boston Jour.*

The total liabilities of the three houses will exceed a million of dollars.

DAVENPORT.—Five years ago Davenport was only distinguished as the most beautiful village on the Mississippi river. Resting upon the western bank of this great river, and nestling in the bosom of a grand amphitheatre, formed by a crescent of bluffs circling around the plain, a half mile back from the river in front—the cliffs of Rock Island parting the crystal waves, and old Fort Armstrong resting upon these walls of stone—the village of Rock Island opposite, and the river coiling off in the distance, glittering like a silver thread for miles—certainly no lovelier spot ever gladdened the eyes of men, than Davenport as a village. It then had only about seventeen hundred or two thousand inhabitants. Now, we have a population of from fourteen to fifteen thousand people, all actively engaged in business, all intent upon developing to the utmost the great advantages of the place, all striving to continue the growth so remarkably commenced, and with every incentive to energetic action. Within five years Davenport has changed from the village to the first city in Iowa, and is now as remarkable for her commerce, trade and manufactures, for all the attributes of a flourishing city, as five years ago she was for her loveliness as a village.—*Gazette.*

GARROTING A COUNTRYMAN.—Mr. Cyrus Smith a trader belonging to Piermont, accompanied by his wife, arrived in this city last evening, and took up his lodgings with a friend who resides at the south part of the city. Not far from nine o'clock last night Mr. Smith left the house for a few moments, and while standing at the corner of Brooklyn and Tremont streets, was attacked from behind by two men, one of whom seized his arms, while at the same instant the other placed a gag over his mouth and throttling him, threw him to the ground. A hard scuffle ensued during which Smith was robbed of a memorandum book containing between $1,000 and $1,100 in bills on the Bradford bank, Bradford, Vt. The robbers effected their escape, and from the appearance of Mr. Smith, it is supposed that the gag used by them was saturated with cloroform. The robbery was the most daring one that has been perpetrated in this city for a long time past.—*Boston Journal.*

APPOINTMENTS.—We have observed announcements that persons named Trook and Quinn have been appointed to clerkships at Washington, from Michigan. It is proper that we state, in order that the applications of meritorious citizens of this State for public employment in Washington may not be prejudiced by any erroneous impressions concerning Trook's residence, that he does not belong in Michigan; and it is proper that we further state that he is the person an account of whose elopement with a married woman was published in the newspapers a few weeks since. Of Quinn, or his residence, we know nothing.

THE NEWBURGH TRAGEDY.—The excitement in regard to this most mysterious murder, grows more intense every day, not only at Newburgh and its vicinity, but all along the Hudson River. [illegible] the deceased, as well as the mystery that envelopes the whole affair, forms the principal topic of conversation. A lady's silk hat, seen floating down the river on Monday, supposed to have belonged to the murdered lady, may throw light upon this shocking affair. ALMOST A FIRE—LOOK OUT FOR THE TOWN.—Yesterday morning about 4 o'clock, the Chenery House was discovered by the watchman to be on fire in the frame addition, running back on Fourth street. The fire had evidently been kindled but a few minutes before, as a coal hod not belonging to the house, was found leaning against the weather-boarding filled with light combustible materials. Had not the discovery been made at the time it was, owing to the high winds, the whole house would have been speedily in flames. As it was, it was extinguished with little difficulty, having only burned a large hole through the weather-boarding. That it was the work of an incendiary is placed beyond a doubt.

There is reason to believe that incendiaries bent on robbery and destruction, are now in our midst. Our neighboring city of Alton has just suffered to the extent of many thousand dollars from their depredations, and now they seem to have taken our city in their course. As we are wholly unprovided with fire engines or hook and ladder companies, would it not be well for our city council to institute a temporary night watch?—*Springfield Journal.*

CONSPIRACIES AGAINST THE LAW.—Our city swarms with organized conspiracies to resist the execution of obnoxious laws. The Liquor Dealers were first in the field—but their example proved contagious. The Emigrant Runners have also combined to protect each other in resisting the statute which interrupts their villainy. The merchants talk about an organized opposition to the new Port Wardens' bill. Mayor Wood has drilled the Police and the Common Council into a position of resistance, and a Convention of Democrats is about to be for the express purpose—not of effecting the *repeal*, but of resisting the execution, of sundry enactments which menace their partisan and selfish schemes.—*N. Y. Trib.*

THE YELLOW FEVER IN RIO JANEIRO.—We make the following extract from a private letter received in this city, from a Spanish gentleman residing in Rio Janeiro, dated Feb. 28:

"You will, perhaps, not exactly understand my allusions to the mortality of the place; but when I tell you that we are now in the midst of the sickly season, and that the yellow fever is carrying away from twenty to thirty foreigners daily, beside leaving several hundred sick in the hospitals, you will agree with me in thinking that it would be a pretty poor speculation for any company to insure my life; and, as my occupation keeps me out of doors, exposed to the sun, you may expect, before long, to see my obituary in the papers."—*N. Y. Tribune.*

TICKET SWINDLERS.—The new law passed by the Legislature, appears to have had a salutary effect on the bogus ticket sellers, as one or two of the principal concerns are closed up, and the proprietors of some others are reported as about going into the country. There were no noticeable cases of swindling passengers by the *Illinois*. If there were any, it was done upon so moderate a scale as not to excite complaint before the sailing of the steamer. The runners, however, are said to be busy consulting lawyers, some of whom represent the law as unconstitutional, but hesitate to advise open resistance to its provisions.—*N. Y. Times, 7th.*

MEXICO.—We have received files of Mexican journals to the 19th ult. They do not contain the accounts of the Archbishops arrest, but matters were tending to such a crisis. Two Priests had been arrested—one for preaching furiously against the Constitution, and the other for refusing the rites of the Church to a professed Liberal. They tyranny exercised just now by the Ecclesiastical authorities is almost too glaring for even Mexicans to bear, and the energy of President Comonfort in arresting the Archbishop may have a salutary effect. It was rumored that the British difficulty was settled, but Mexican journals are not at all clear on the subject. Particulars were not known.

THE WHEAT CROP IN EGYPT.—A gentleman direct from the "land of darkness," Egypt, informs us that the prospect there for a good crop of wheat is very favorable. The farmers in that region do not anticipate any scarcity of this staple, and have come to the conclusion that they will be able to afford the luxuries of 'wheat bread and chickenfixens.' We only hope that the present favorable weather we now enjoy, will prove beneficial to the wheat in Sangamon.—*Springfield (Ill.) Rep.*

DEATH OF MR. PRATTEN.—We regret to learn the death of Mr. Henry Pratten of this city, chemist, and assistant in the office of the State Geological Survey. He died on Tuesday, of erysypelas. Mr. Pratten was a most accomplished and scientific gentleman, and his death will be a severe loss to the survey. His long connection with the active business of the office and his familiarity with its details, will make it difficult if not impossible, to fill his place.—*Springfield (Ill.) Journal.*

DEATH OF THE HON. MILES TAYLOR.—A telegraphic despatch conveys the sad and most unexpected intelligence that the Hon. Miles Taylor, Member of Congress from the Second District of this State, died suddenly on Thursday night at Barnum's Hotel, in Baltimore, whether he had gone with Mrs. Taylor *en route* for Europe.—*N. O. Picayune, April 26.*

FIRE.—The hat manufacturing establishment of Duryea, Jacques & Co., at Newark, N. J., was damaged by fire on the 30th ult., to the amount of from $15,000 to $20,000—fully covered by insurance.

☞ Cassius M. Clay, of Kentucky, has just buried a promising son, bearing his own name.

TO THE CITIZENS OF THE UNITED STATES.—CAUTION TO THE PUBLIC.—After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1847, in making a discovery in its manufacture by which it was deprived of acrid and inflammatory properties, and rendered perfectly pure.
My manufactory is at Schiedam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Schiedam Aromatic Schnapps." Schiedam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogue, Dram—Wolfe's Schiedam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the liquor mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Schiedam Gin, Schiedam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the article; a merchant who participates indirectly in the fraud by selling the spurious article, is as much an offender as the principal who planned the imposition.
I hope every respectable citizen who values the health of the community in which he lives will aid me in ferriting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory for popular execration.
WOLFE'S SCHIEDAM AROMATIC SCHNAPPS is made from Barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.
As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-west are peculiarly liable—the Said am Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys and bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.
It is put up in quart and pint bottles, in cases of one dozen each, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.
For sale by all respectable druggists and country merchants.

IMPORTANT TO FEMALES—DR. CHEESEMAN'S PILLS.—The combination of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, painful menstruation, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which always arise from interruption of nature. They can be successfully used as a preventive. These pills should never be taken in pregnancy, as they would be sure to cause a miscarriage. Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. For sale by C. V. Clickener & Co., No. 81 Barclay street, New York; Penton, Fisher & Co., 94 Lake street; and Penton & Robinson, 15 South Water street, Chicago.

IMPORTANT TO CONSUMPTIVES.—Many valuable lives have been saved by Hegeman, Clark & Co.'s Genuine Cod Liver Oil, which, in all human probability would have been lost but for its timely use.
It is no quack medicine, but the Pure Oil, made with the utmost care from the Fresh Cod Fish Livers, and is recommended by the most eminent physicians in Europe and America, and has proved by ten years' experience, the most valuable remedy for Consumption and Scrofula ever discovered, for, while it cures the disease, it increases the health and strength of the patient.
CAUTION.—There is a great deal of spurious oil, adulterated with Seal Oil, Whale Oil, &c., which, instead of benefiting, injures the patient, by deranging the digestive organs, but being cheaper, is by unprincipled persons palmed off for genuine.
Notice that Hegeman, Clark & Co.'s signature is over the cork, and the Eagle and Mortar on the label; for, since the death of W. L. Rushton, our late partner, there has been an article called "Rushton's" put in the market, which is in no way connected with R. C. & Co., or H. C. & Co., and thousands who had used other Oil without success, have been restored to health by the Genuine Oil of our manufacture.
Sold by J. H. Reed & Co., Penton & Robertson, Penton, Fisher & Co., [illegible] Smith & Co., Sargent, Paige & Co., [illegible] Bay & Baldwin, Gale Bros., F. Scammon [illegible] and by Druggists generally.

The proprietor of these Pills will forfeit the One Thousand Dollars if they fail to make a cure, and hopes that he may be instrumental in curing thousands of unfortunates of diseases for which the usual remedies (which are often ineffective) are nauseous, and certain to accomplish the exposure of the Patient. The Infallible Gum-Coated Pills are without smell—cannot be detected as a specific for secret diseases, as they look like any ordinary Pill, and may be carried in the vest pocket, and safely taken anywhere. They can be swallowed without the slightest inconvenience, having no taste and producing nothing like sickness of the stomach. No other remedy of like nature possesses such advantages, nor will they cure so surely and speedily as the [illegible]

CRISTADORO'S HAIR DYE.—This great chemical discovery has taken precedence over every other preparation for changing the color of the Hair. The public have realized by experience the important fact, that while it imparts the most perfect and natural black or brown, it does not impair the softness and elasticity or arrest the growth of the hair. Free from all caustic ingredients, it neither stains the skin of the head, dries up the moisture circulating through the fibres, nor emits any unpleasant odor. The application is given and finished in ten minutes, in any weather, and the rich natural hue imparted to the hair of the head, the whiskers and moustaches is uniform to a shade in every filament. Hence its popularity, and the wonderful rapidity with which it has superseded all other dyes, throughout the United States.

THE BISHOP O'REGAN CONTROVERSY.

CHICAGO, May 7, 1857.

To the Editor of the Chicago Daily Tribune:

SIR:—There appeared in the *Daily Times* of this city, on the 22d of March last, an article purporting to be a pastoral address of his Lordship the Bishop of Cydonia, Administrator of the Diocese of St. Hyacinth and Coadjutor Bishop of Montreal, which has since been published in some of the Catholic journals of the East, at the request of some person unknown, and by means which Bishop O'Regan seeks to justify the course he has taken with respect to Mr. Chiniquy and the Catholic people of this Diocese. It is, Sir, with reluctance that I recur to these scandalous difficulties that exist between Bishop O'Regan, his priests and people, now so long before the public mind, and out of which so little good has as yet arisen; but justice to Mr. Chiniquy, and a regard for truth have prompted me to make a few remarks on this Pastoral of his Lordship, the Bishop of Cydonia, who evidently appears to be actuated in this matter by a zeal over-stepping his prudence. It is strange that a Canadian Bishop, belonging to a foreign province, and a stranger to us of Illinois, will step into the United States to prejudge and denounce parties in a high-handed manner, while our own Archbishops and Bishops observe a studied silence on the same matters. If his Lordship of St. Hyacinth, could "no longer be silent upon this matter without prejudice to religion and the consciences of many," by what process of reasoning can the Archbishops of the United States justify their silence upon it, especially those of St. Louis and Baltimore, both of whom apparently possess direct jurisdiction over the Diocese of Chicago. It is manifest that his Lordship of St. Hyacinth is too precipitate, or his Brothers of the United States are guilty of negligence, "to the prejudice of religion and the consciences of many," in not investigating and denouncing these scandals as he has done. His Lordship, at the commencement of that pastoral, bursts forth into a strain of bitter invective against all persons who dared to question the justice or righteousness of Bishop O'Regan's course towards his French clergy and people. He has reproached all the French people of this city and Kankakee county with falsehood towards their Bishop—contempt for religion and with being the originators of a great scandal and schism in the Catholic Church, and has branded their letters, that appeared in the public press, with the approbious terms "artful and insidious." This hasty condemnation by his Lordship, of their course in this affair, must have arisen from a misrepresentation of the facts, and a deceit practiced upon him by Bishop O'Regan, who urged his Lordship to this exhibition of his feelings, without permitting him to reflect upon its consequences. And Bishop O'Regan is now circulating through the Catholic Press of America, this passionate and unpremeditated address of the Bishop of Cydonia, as a proof of the rectitude of his course, and an indication of his success in subduing Mr. Chiniquy. Thus a scandal that has heretofore been confined to Illinois, is now carried, through the instrumentality of the Bishop of Cydonia, throughout the whole continent of America. Thus a matter that stands before the Sovereign Pontiff for adjudication, is summarily disposed of by the Bishop of Cydonia, without any evidence to guide him except that afforded by Bishop O'Regan, and without any authority to investigate it, except that which he possesses in common with all men, and the necessity of the case confers.

If the Bishop of Cydonia charges the Hierarchy of the United States with negligence, he himself stands convicted of imprudence and and partiality. Imprudence in wresting this matter from the hands of the Sovereign Pontiff and disposing of it in a summary manner, without any knowledge of the facts; imprudence in usurping the office of the Hierarchy of the United States, by interfering with what ought to concern them; imprudence in giving a local scandal universal circulation to the great detriment of the American Church, and imprudence in passing judgement upon the naked assertion of Bishop O'Regan, who is constituted witness in his own cause, and whose testimony may well be doubted when his interests are at stake. He stands convicted of partiality by rejecting the testimony of the French people of the Diocese of Chicago in regard to this matter, and that of the Germans and Irish in regard to many others, all of which are sufficient to create a doubt at least upon any impartial and unprejudiced mind, of the devious course of the Bishop and the insincerity of his motives.

His Lordship declares, that as Mr. Chiniquy did not appeal from the sentence of Bishop O'Regan to the Archbishop, his Metropolitan, he has justly merited all the censures fulminated against him; but his Lordship, had he known the history of the Church difficulties in Chicago, would not have hazarded his eight withering results upon such a basis; for he would have known that the Archbishop of St. Louis, the metropolitan of Chicago Diocese has been always either unable or unwilling to check Bishop O'Regan's extraordinary course in the administration of the affairs of this diocese, though he has often expressed his dissent from such a course, and when appeals were made to him by other clergymen he invariably declined interfering with him. If therefore, it was useless for Mr. Chiniquy to appeal to his metropolitan, and that he has appealed to the Sovereign Pontiff, these eight results of his Lordship's must fall to the ground; but let us examine these results: The first is "that he most justly merited the excommunication pronounced against him by his Bishop," which rests for its usefulness upon the reason and motive of the excommunication, rather than the mere contingency of appealing or not appealing from such a sentence; and when the Bishop of Cydonia constituted himself judge in this matter, he should have examined the facts rather than decide from a mere matter of expediency. And as the case of Mr. Chiniquy now stands before the Sovereign Pontiff by appeal from Bishop O'Regan, his Lordship of St. Hyacinth well knows that the censure of the latter is thereby suspended until it is either removed or confirmed. He therefore commits a great act of injustice towards Mr. Chiniquy, in pronouncing his sentence justly merited without any knowledge of the facts in the case, and in anticipation of the judgement of the Sovereign Pontiff. I am sorry to perceive that the Bishop of Cydonia was so far forgetful of his theology as to be guilty of the gross mistakes contained in the fourth and fifth results that he has drawn; in both of which he asserts that all confessions made to Father Chiniquy, and all absolutions granted by him since his suspension are null and void. I need only refer his Lordship to Billuart, Baily, Bouvier, Dens, or any other Catholic Theologian, and he will find in the Tract De Censuris, that a suspended Priest can *validly*, though not *licitly* celebrate mass, administer sacraments, &c., and consequently that confessions made to him need not be reiterated. I am fully convinced of the purity and sincerity of his Lordship's motives, in discussing the matter before his people; but he has been beguiled by the crafty Bishop of Chicago into such discussion, who, to give color to his unparalleled proceedings, circulates this Pastoral throughout America, which he stealthily procured for sinister purposes.

A letter of Bishop O'Regan, dated November 20th, 1856, in which he states that the dispute about the Church property of St. Anne's has had nothing to do with the excommunication of Mr. Chiniquy, is set forth at length in this Pastoral. This insinuating and artful letter would have the tendency to convince an innocent and unsuspecting mind, had not many other letters been written on the same subject, and all of them fallen under the notice of the Bishop of Cydonia. From these he extracts such words and sentences as men smarting under the pains of oppression, and excited by the severity of their Bishop, are apt to utter, while he avoids the calmer parts that would lead to conviction. It is scarcely credible that an honorable and high-minded Bishop, such as I believe his Lordship of St. Hyacinth to be, could be guilty of thus wilfully misrepresenting his French brethren of Illinois; but filled with a due sense of the high and dignified position that a Bishop ought to maintain—of the profound respect for truth, justice and religion, that he ought always to possess, he would rather labour to reconcile apparent contradiction, than allow any suspicion of the ignoble conduct of such a dignitary to rest upon his mind.

That distinguished Canadian priest of whom his Lordship speaks as confirming the account of Bishop O'Regan may easily be deceived. He is but a short time in this Diocese and could scarcely have obtained a sufficient knowledge of the facts, to render a just account of such a complicated matter. He is the friend of Bishop O'Regan, and entertained by him at his Episcopal Palace; and when the Bishop requires of him to corroborate any statement touching his mission to Illinois, his approbation is given as a matter of courtesy. But his Lordship must entertain a very humble opinion of his fellow-countrymen of Chicago when he allows the statement of Bishop O'Regan corroborated by that of a Canadian priest, so easily misled in such a matter, to outweigh the testimony of over two thousand people, who testify to facts that have fallen under their own personal observation. It is venturing too far to convict so many persons, heretofore sustaining unblemished characters, of direct and wilful falsehood, on the testimony of two—the one a witness in his own cause, and the other without any knowledge of the facts except that received through the former.

There is one fact connected with this matter, to which I would direct the particular attention of the Bishop of Cydonia. It is, that Bishop O'Regan suspended a French clergyman while acting as pastor of the French church of this city, for refusing to hand over one hundred dollars received as a donation from various persons in this city; and restored him again in consideration of payment of the sum. The fact is well known to the Catholics of Chicago, and Bishop O'Regan has never ventured to deny it.—Simony is the desire to exchange the spiritual for a temporal reward; but that Bishop O'Regan is guilty of Simony by this exchange, his Lordship of St. Hyacinth can best determine. Certain kinds of Simony incur, ipso facto, excommunication; but that Bishop O'Regan incurred such a censure, let the Bishop of Cydonia determine. He who is excommunicated cannot prefer censures; but that Bishop O'Regan is such a person, his Lordship may decide.

But aside from this Simony. The validity of the excommunication of Mr. Chiniquy can only be ascertained by a proper investigation of the facts in the case. It requires an obstinate perseverance in almost [illegible] crime, contrary either to faith, the discipline of the church, or morality; but the sentence of excommunication fulminated against Mr. Chiniquy was pronounced on account of some rash and unpremeditated language used by him towards his Bishop, during their discussions about the church property question, which, though disrespectful, is far from being sufficient cause for a valid excommunication. If, then, the excommunication be notoriously void, for want of sufficient cause, how can the Bishop of Cydonia atone for the great injustice he has done Mr. Chiniquy in robbing him of honor, character, and whatever else is dear to him; or for the still greater crime of publicly supporting Bishop O'Regan in his [illegible] conduct towards his priests and people. Let his Lordship consult his own conscience on these matters, and it will be his best guide. But since he had the courage to enter upon the discussion of these matters, it is to be hoped that he will have the perseverance to investigate them thoroughly, and expose to the world the individual with whom they originated, and by thus doing justice to Mr. Chiniquy and the Roman Catholics of Illinois, he will remove from himself the burden that now rests upon him, and [illegible] the great scandal at present existing in the Catholic Church of Chicago, so injurious to religion and the consciences of many. Yours respectfully, I. C.

DEATH OF A LAW WRITER.—[illegible] of Providence, R. I., a legal author of some note, died suddenly at the hospital in Boston on Friday night. He had just arrived in Boston to superintend the publication of a [illegible] work, when he was taken suddenly with apoplexy, and died [illegible] at the age of 66.

MODERN SPIRITUALISM.

A brief and hasty editorial article in the TRIBUNE of Tuesday has drawn out the following comments upon the subject matter therein considered:

First Letter.

MESSRS. EDITORS:—I notice with much pleasure that you have given that "Spiritual" humbug a shot between wind and water; and I hope that you will continue the discussion in the same candid strain until some attempt is made to explain the well known phenomena, upon scientific principles, or in some other way than by calling spirits from the vasty deep.

Yours, very truly, AVENES.

The second letter is a curiosity. We print it as it comes to us:

Second Letter.

CHICAGO, April 6, 1857.

MESSRS. RAY & MEDILL:—I don't wonder that your paper that don't talk about anything else than niggers, should get blind to what is greater than all the niggers that ever was; I mean the truths of the Gospil in which this Spiritual business is clearly explained. I beleve, sir, in the works of the Devil, and I don't want no better evidence that he is at the bottom of these rappings and tippings and bundlings than I find between the leds of that book. And I have considered that if you would turn attention to gospil truths instead of trying to make the people crazy about Slavery which God in his book approves of as is shown by Hagar in the wilderness and Onesimus in the New Testament, you would find an explanation of a good many thing that you do not seem to understand—this Spiritual business and Slavery included. I think sir, if you would do this you would not be so ready to call on scientific men to investigate the thing, because before the wisdom of the Lord their science, big words and all would be consumed up in short metre. You may depend upon it these manifestations are nothing more than a trial to which God submits his Church upon earth, as Satan tempted Job and slew all his sons and servants. And if you will allow me, an humble disiple, to exhort you to turn from your evil ways, you will prophet by what the Lord has taught me.

A—— M——

Third Letter.

The authorship of the following we do not know.

CHICAGO, May 7, 1857.

MESSRS. EDITORS—GENTLEMEN:—I am pleased to notice an editorial in your paper of the 5th inst., on this subject. I think as you do, that it is not enough in this nineteenth century—in this age of science, of intelligence, of investigation, to dispose of a subject of the magnitude of the phenomena, and much more, the philosophy, claimed to be the work and teachings of spirits once inhabiting earthly bodies like ours, with "pshaw, 'tis a humbug." Spiritual life, immortality, a future state of existance, is too sacred a subject to thus trifle with.

The phenomena of Spiritualism are not practiced in a corner, nor is the light, the philosophy, hid under a bushel. It is truly a light, shining at present, in a dark place, and the darkness of Sectarian and Theological wisdom comprehends it not.

Spiritualism does not seek concealment—it does not shun scrutiny. Nay, rather, it not only invites examination, but challenges investigation. It challenges science, and claims it as its proof—its most certain defence. It challenges the theologian, with his bible, to the investigation of its reviving spiritual inspiration, to see which, present theology, or modern Spiritualism, has most of its vitality, and most of God.

The clergy of this city have passed it by, only declaring it the work of the Devil, without investigation on one side, and the laity on the other, as too profane for their attention, while hundreds of our citizens are embracing it with faith, zeal and ardor.

The clergy, set as watchmen upon the walls of Zion, are really the moral lighthouses of the people, their position and attitude making them so. To them the people look for light. "If the light that is in them be darkness, behold how great is that darkness."

Letter No. 4.

The following is from one of the best men of our acquaintance:

LA SALLE, May 6, 1857.

Eds. Chicago Tribune:

In your paper of last Saturday is a letter from two Spiritualists claiming to be converts to Romanism by the directions received from the spirit-world endorsing that form of worshipping the Almighty God. I am a believer in the spiritual origin of manifestations which I have heard and can account for in no other way. I have received holy sentiments from such manifestations where the persons composing the "circle" (being none but my relatives) precluded the idea of deception from them. I am a believer, without a shadow of doubt, in the divinity of Jesus Christ, and I do, humbly endeavor to walk daily by faith in him and by it alone. I have heard ministers of the Gospel of Jesus Christ denounce these spiritual manifestations as the works of men done for the purpose of deceiving their fellows. Such ministers I have cautioned and do caution that they destroy not their own influence as promulgators of holy truth, by denouncing, in their ignorance, as false, that which they are not warranted by the Word of God in so doing, but which, on the contrary, that Word continually asserts to be possible and which a very large proportion of the people of this country feel that they know—to wit, the spiritual origin of these manifestations.

In your paper of Monday you give your own views on this subject, which show that you differ from me as well as from the Roman Catholic converts alluded to. You advise an investigation of the subject by prominent men in whom the community have confidence. To this I have no objection, if such rulers are willing to trust themselves with the subject. It is an absorbing and (experience has proved) dangerous matter for the intellect. In my humble opinion, no man is safe to meddle with it, in hopes of reaching any good result, except one who walks tremblingly before his God and whose faith and trust is in him alone. The investigations of the merely scientific into spiritual matters have always been confounded, I believe. So of those who are only wordly great.

They can no more hope to weigh spiritual matters with their balances than a chemist can expect to arrive at correct conclusions in figures or algebra by the application of the rules of analysis or of acids and other chemical tests. The subjects are not homologous. The true spiritual test is the Bible. Your Roman Catholic converts claim that the spirits favor Romanism. Perhaps some others may claim they favor some other form of worship, I know not. But let me bring to mind what "the Revelation of Jesus Christ which God gave unto him" says on the subject of Spiritualism and its connection with the worship of God Almighty. In the 16th chap. of Revelation after foretelling that upon men having the mark of the beast should fall a noisome and grievous sore, and upon the sea and its inhabitants and upon the rivers should fall a plague, and that the same should scorch mankind with its great heat, and that those in the kingdom of the beast should blaspheme because of their sores, and that the water of the Euphrates was dried up that the of kings of the east might be prepared, it is written "And I saw three unclean spirits like frogs *come* out of the mouth of the dragon and out of the mouth of the beast and out of the mouth of the false prophet. For they are the spirits of devils working miracles *which go* forth into the kings of the earth and of the whole world to gather them to the battle of that great day of God Almighty." In the next chapter some think they find the names of the dragon and the beast and the false prophet written in pretty plain English. Of this each true believer will judge for himself, but from the passage which I have given no believer can turn away and doubt that the time either has come or will come when spirits will be permitted to work miracles upon the earth, and in the spite of men. The true believer is told to try the spirits whether they are of God, and he will try them by their works and by the word of God. If they do the works of God they are his, if they do the works of the devil they are his. But we must watch and pray lest we enter into temptation of them.

60,000 Acres of Valuable Lands for Sale!
THE UNDERSIGNED HAS 60,000 ACRES of very choice farming lands for sale, in the North-Western part of Illinois; all of which lie in the very best portions of the State, and are among the most valuable lands in the State for agricultural purposes, being accessible alike with both Railroad and navigable water facilities, and well supplied with most excellent timber, good water, beautiful stone, both lime and free, which is easily worked, and almost all of which lands are underlaid with Stone Coal, which is very accessible.
To small as well as to large purchasers, I can say that they need not fear going into the wilderness to find these lands, as they lie in a region of country well inhabited by intelligent, enterprising people, with churches and school privileges.
I will sell these lands in such terms that no one should object. The title, I will have ample abstracts of, so that no fears need be entertained on that account. There is perhaps no other list of lands of the same amount in Illinois, that comprises the many advantages of these tracts. There are none of them so remote from either Railroad or navigable rivers, but that a farmer could leave his farm and go to either railroad or water town and back with a wagon in the same day. [illegible]
The country is as healthy as any region of the United States, [illegible]
I have, also, a large number of city lots in Fulton City, Illinois, and a few in Cairo, for sale. Fulton City has grown, in the last four years from a population of about 100 to at present about 1,500. There is now established a daily line of new and fast running packet steamers from Fulton to St. Paul, [illegible]
A particular description of each quarter section of land will be furnished to persons wishing to purchase, [illegible]

JUST PUBLISHED,

THE UNFORTUNATE'S GUIDE, GIVING directions where to obtain Medical aid, and containing astounding facts and thrilling and interesting information never before in print. By Doctor WM. THOMSON. Price twelve cents. Upon the receipt of four postage stamps, the book shall be forwarded free from observation, to any address in the United States or Canadas. As it contains important private information for both sexes; the author received, through the Post Office during the last month from various parts of the country and city, over three thousand orders, for as many copies, evidently in the hand writing of females, for and fictitiously signed, for the purpose of preserving their incognita. It is no "catch penny," but abounds in startling and interesting truths, extracted from the author's diary and case book, the result of thirty years' practice in all climates, in the treatment of diseases of the sexual organs, which gave him better opportunities than those possessed by the Roman Catholic Confessor, to look behind the curtain.

Address Dr. Wm. Thomson, Box 72, Chicago, Illinois.

Those afflicted with spermatorrhea (seminal weakness), or any private disease, before applying to any physician for medical assistance, should obtain a copy of the Unfortunate's Guide, and thus be enabled to escape the disastrous consequences of quackery.

CHICAGO.......................ILLINOIS,

IMPORTERS OF

BRANDIES, WINES AND SEGARS.

Also, Agents for the

Central Society of Vineyard Proprietors

—OF—

Cognac Brandies from the Growers Direct.

ONE OF THE PRINCIPAL AND GREAT causes of the high price of Brandy in this market is the indirect source from which it is derived. Nine-tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, and at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of Brandy growers in France has been accomplished with the view of shipment to the United States.

The name of the association is the Central Society of Vineyard Proprietors of Cognac, under the management of a president and a committee of inspection of eight members. The society itself numbers five hundred vineyard proprietors amongst them some of the most influential residents in the neighborhood of Cognac, who contribute under certain bylaws, the entire growth of their vineyards to the general fund of the society, the present capital of which is 6,000,000f.

The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment upon the subject, nevertheless, it may be worthy of observation that few instances in this country possess a more certain claim to public approval, than the union of interests effected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of Brandies. For this purpose a clause introduced into the statute (article 49) renders it imperative that shareholders should supply the society with the very best Cognac Brandies, otherwise they incur the liabilities of an entire forfeiture of their shares. The undersigned agents in the United States for the Central Society of Vineyard Proprietors of Cognac would solicit the attention of

DRUGGISTS, MERCHANTS, HOTEL KEEPERS, GROCERS,

And others, to the vintages now on hand, confident that they will compare more than favorable with any article in the market, and at prices far below the standard rates of ordinary Cognac. And as we import our Brandies direct to Chicago, we are enabled to sell at a less price than any other house in the city. The different vintages can be had in bond or duty paid.

NEW OSWEGO LINE.

WESTERN MERCHANTS AND FORWARDERS of Property and Merchandise to and from the West and North-west, are respectfully notified that the proprietor of the above line has effected such arrangements as will enable him to offer superior inducements to shippers of every description of Merchandise and Freight from New York to all ports on Lake Ontario and the Upper Lakes, with quicker dispatch and at as advantageous rates as any other line.

Upon the resumption of navigation, a line of A 1 Lake Boats, of the largest class, will be put on to transport freight from New York to Oswego without transhipment, and there connect with propellers and sail vessels on the Lakes. No property will be warehoused till it has reached its destination, as a vessel will always be in readiness at Oswego so that Freight may be transferred directly from the canal boats on their arrival.

The Proprietor will at all times endeavor to attain the quickest possible dispatch, and parties who have heretofore had their goods shoved away for weeks in a warehouse or depot in transitu, will find that such unwarrantable delays will be entirely avoided by the

NEW OSWEGO LINE.

All Freight intended to go forward by Propeller should be marked "STEAM."

AMONG THE MANY SALES OF LAND to be made in Chicago this Spring, the following list comprises probably the choicest Lands that will be presented at Public Sale, all of which have been selected with great care and by competent judges. The Sale will be at my Salesroom,
